#### Button-less slim door

The switches typically found on the door trim have been moved to the center console, allowing you to add customized items as needed.

#### Bridge-type center console

The bridge-type center console makes it easy to use laptops, tablets, and other devices in the car.

\* The smart table shown in the image is sold separately and will be available for purchase at the Hyundai Shop (<https://shop.hyundai.com/>).

**Dual-color ambient mood lights**

Set the lighting to suit your mood with the dual-color ambient mood lights installed in the upper and lower door trims for both the front and back seats. There are six themed color options to choose from to enhance your mood.

 Concentration  Healing Forest  Wonderful Day  Mind Care  Meditation  Creative Moment

ambient mood lights

# Sustainability

Eco-friendly materials and techniques have been applied throughout all indoor spaces to ensure sustainability.

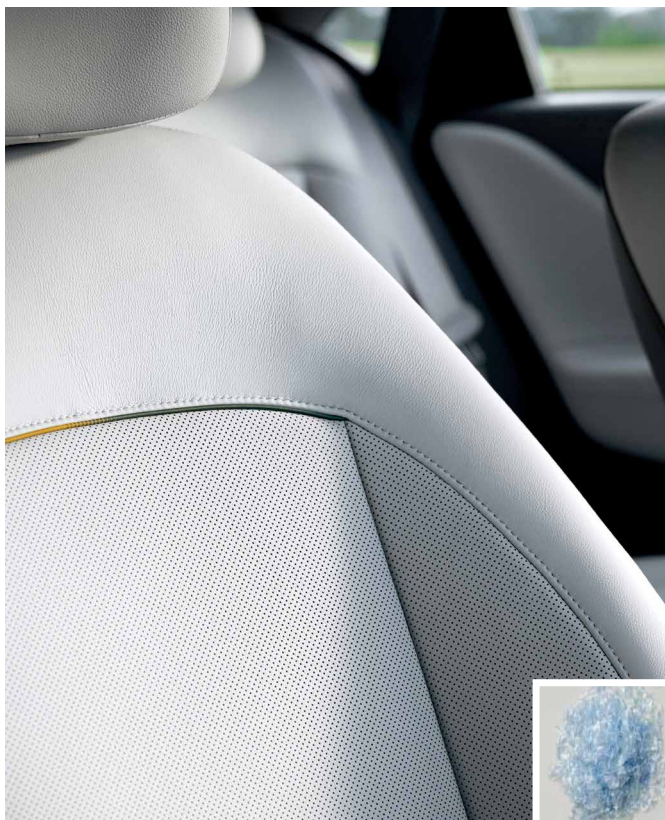

## BIO-paint door trim

The dashboard and door trims are coated in a special BIO-paint made with rapeseed flowers and corn extracts.

## BIO-TPO crash pad

Eco-friendly fibers from thread extracted from sugar cane are used in the crash pad.

## Eco-processed natural leather

The leather used for the seats was processed in an eco-friendly manner through the use of flaxseed oil extract.

## BIO-PET yarn headlining

The material used for the headliner uses eco-friendly fibers extracted from sugar cane.

## Recycled Fisher-net carpet / car mat

The carpet and car mats in the IONIQ 6 are made from used fishnets.

# Function

Experience the IONIQ 6's wide range of advanced mobility features.

## OTA Software Update (Over-The-Air Updates)

Get the newest version of the software wirelessly by simply turning the car off.

\* The screen layout/design of the infotainment system may change with the regular updates.

## Digital side mirror (camera and OLED monitor)

The digital side mirrors built into the crash pad use cameras and OLED displays to provide a clear view for the driver.

## Remote Smart Parking Assist 2

This function lets the driver enter and leave a parking space from outside of the car.

IONIQ 6 Function  
Take a closer look

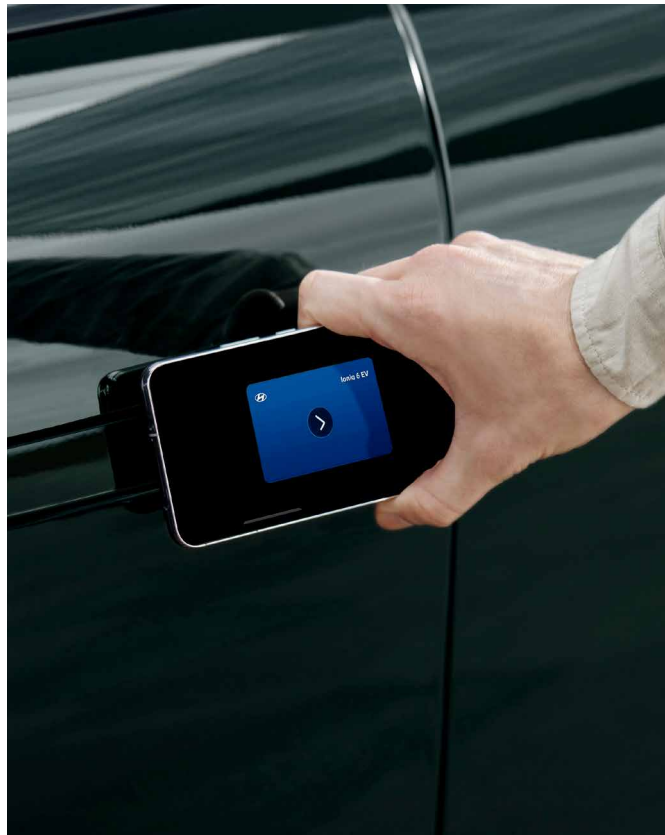

### Interactive Pixel Lights

The four Interactive Pixel Lights installed in the fabric-style horn cover give you the feeling that you are communicating with the IONIQ 6 and indicate the car's current status (welcome/good-bye, drive mode, EV ready, voice recognition, charging, and others).

\* The indoor V2L is a customized feature.

\* To use indoor V2L for the first time, the cover must be unlocked using the smart key.

It can be used while the car is running or in utility mode and also while the outdoor V2L function is being used.

### Digital key 2 touch

Use your smartphone to lock or unlock the door or start the vehicle. When necessary, the digital key can be shared with others.

### Indoor V2L

The indoor V2L feature (located under the middle second-row seats) enables the unrestricted use of electronic devices inside the vehicle.

### Outdoor V2L

Passengers can use a wide selection of electronic devices outside the vehicle as well as inside through the outdoor V2L function. The outdoor V2L function ensures a comfortable experience for passengers during outdoor activities in virtually any environment.

# Driving

Enjoy the driving performance of the IONIQ 6, designed to satisfy drivers' needs.

IONIQ 6 Driving  
Take a closer look

Max. Power / Max. Torque

## 239kW / 605Nm

The IONIQ 6's 239kW output makes it fun and dynamic to drive.  
(based on total Long Range AWD capacity)

### EV Tune-up Technology

You can customize the steering, horsepower, acceleration sensitivity, drive system, and other settings to suit your driving style.

### EV Active Sound Design (e-ASD)

The IONIQ 6 offers superior driving pleasure by generating spaceship-like driving sounds.

### Mood lights synced to speed

The front seat mood lights get brighter the faster you drive, providing a dynamic driving experience.

# Charging

Experience the IONIQ 6's fast and convenient charging.

IONIQ 6 Charging  
Take a closer look

Distance per  
15-minute charge

301km

Battery charge per  
18-minute ultra-fast charge

10%~80%

Range using ultra-fast charger

A 15-minute charge will provide a range of 301km, and it takes only 18 minutes to charge the battery from 10% to 80%.

(Long Range 2WD, 18-inch)

## Electric charging door

Use the button on the charging door to conveniently open and close it electronically.

Maximum driving  
distance for one charging

524km

The use of a large-capacity battery pack (77.4kWh) makes the IONIQ 6

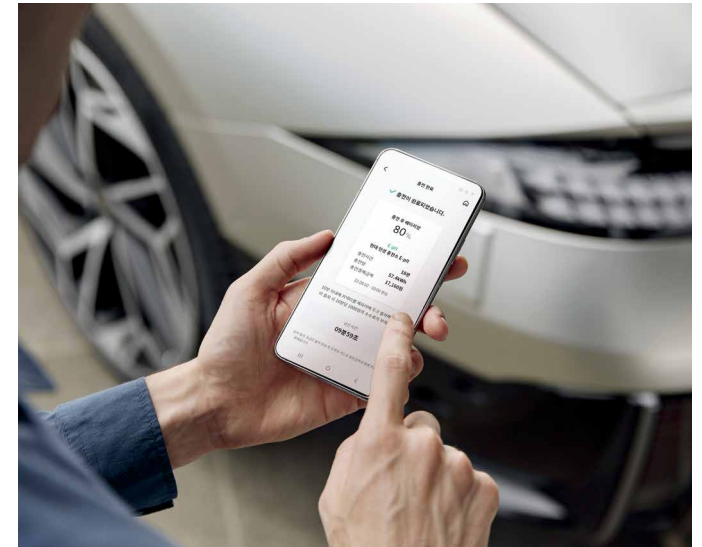

an electric car that can be taken on long-distance drives, in addition to shorter urban trips.

(Long Range 2WD, 18-inch)

## Interactive Pixel Lights (includes charge status display)

The four Interactive Pixel Lights installed in the fabric-style horn cover display the IONIQ 6's charge status.

## PnC (Plug and Charge)

Authentication and charging start as soon as the charging cable is connected to the vehicle. Payment is made automatically after charging is complete.

\* Only possible when using E-pit infrastructure (app installation required)

Prestige Full Option (Exterior color : Biophilic Blue Pearl)

# Hyundai SmartSense

Hyundai SmartSense provides a safe and convenient driving environment through technology that enhances the safety and convenience of both driving and parking.

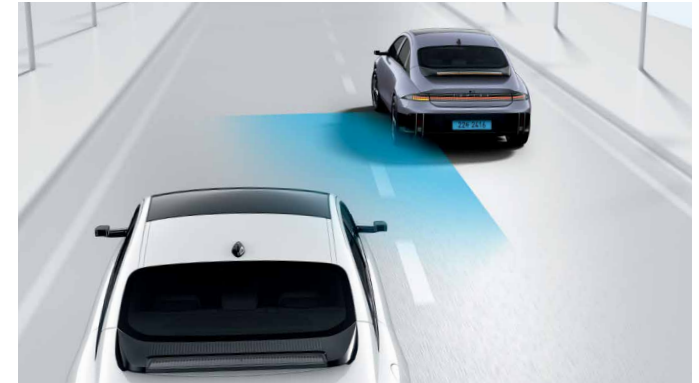

## Forward Collision-avoidance Assist

The sensor alerts you when it detects danger, such as sudden deceleration of the car in front or the presence of stopped cars, pedestrians, or bikes. It will help stop the car if the risk increases after the alert is sounded.

It also helps stop the car when it senses a risk of collision with an oncoming car or a car approaching from the left or the right when making a left turn at an intersection.

It can also help steer the vehicle to avoid a potential collision with an oncoming car, a car in the next lane when changing lanes, and even pedestrians on the edge of the road ahead.

## Blind-spot Collision-avoidance Assist

A warning is issued if risk of collision with the vehicle next to or behind you is detected while you are using the turn signal to change lanes. If, while attempting a forward exit (from a parallel-parked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

## Safe Exit Warning

If a vehicle approaching from the back is detected after the car is parked and the passengers are opening doors to get out, a warning is issued.

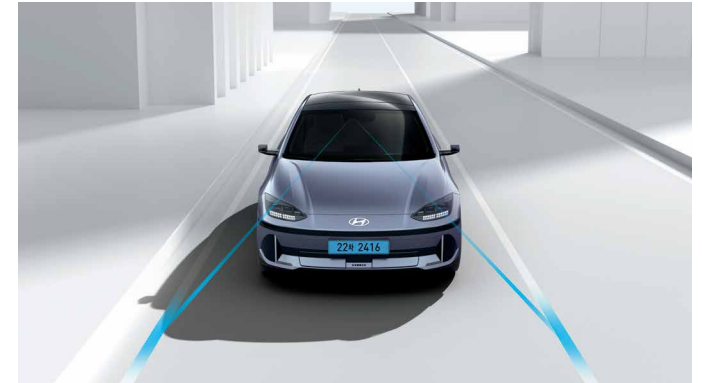

Hyundai  
SmartSense  
Take a closer look

#### Navigation-based Smart Cruise Control (Safe/Curve/Access road)

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reduced-speed zone, the vehicle is brought back to its designated speed. In a curved section of a road, speed is reduced just before entering the curved section. After leaving the curved section, the vehicle is brought back to its designated speed. This system also helps maintain a safe driving speed at the entry or exit point of a highway.

#### Lane Following Assist

This system keeps the car in the center of the lane.

#### Rear Cross-Traffic Collision-avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

# E-LITE / Exclusive

Line-up  
Take a closer look

18-inch alloy wheels  
(standard for all trims)

20-inch alloy wheels  
(optional for all trims)

### Maintain a constant speed to drive more efficiently.

■ The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. ■ Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. ■ The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. ■ Leather (seats, wrapped parts) is partially mixed with synthetic leather and/or other materials (e.g., fabric). ■ Vehicle colors presented here may differ from actual appearance. ■ Driving range may vary depending on the driver's habits, road conditions, outdoor temperature, and air conditioning settings. ■ A drop in outdoor air temperature (in winter months) may result in a shorter range due to a decrease in battery performance. ■ Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. ■ For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For detailed specifications, please refer to the price list for the relevant month.

## How to purchase an electric car

① Sign a car sales contract  
- Car contract

② Apply for subsidy  
- Fill out electric car subsidy application for the local government of jurisdiction  
- Submit application  
- Receive results

③ Get information on home charger  
- Consultation available for those who wish to install a charger at home  
- Information on one-stop consulting services, connection to Hyundai Motor partner company

④ Car allocation, car release  
- Check is made on eligibility for and amount of electric car subsidy (from local government of jurisdiction) by 10 days before car allocation  
- Car will be released if there are no outstanding issues

⑤ Apply for payment of subsidy  
- Application process for payment (wire transfer) of subsidy to the local government of jurisdiction must be completed within 10 days of the car's release  
- Once subsidy is confirmed to have been wire-transferred to Hyundai Motor, subsidy amount is subtracted from price that needs to be paid by customer

⑥ Install charger  
- Home charger will be installed for customers who requested it  
- Final check will be done to ensure that the customer is satisfied with the car.

## IONIQ 6 Warranty information

### - Warranty period for separately-insured electric car parts:

10 years, 160,000km

※ High voltage battery: 10 years, 200,000km

- **Related parts:** Drive motor, Reducer, High voltage battery, Inverter, ICCU(LDC+OBC), Electric vehicle system control device(VCU)

The advanced technology of Hyundai's Bluelink system helps keep both the driver and the vehicle safe in any situation.

Bluelink is always there to keep you safe, regardless of the location or time of day. Experience the unique joy of safe and comfortable driving.

### Remote control

In the extremely hot summer or cold winter months, you can link your smartphone to the air conditioner or heater to set and control the temperature inside the vehicle. Enjoy a pleasant driving experience with Bluelink.

### Safety security

The Bluelink Center works 24 hours a day, 365 days a year. If an airbag opens due to an accident, the Center automatically detects your location and takes appropriate actions according to the situation, such as contacting the police, ambulance, insurance company, etc.

### Vehicle management

Services include real-time trouble detection while the vehicle is running and regular vehicle inspections on pre-arranged dates. In the event of vehicle trouble, immediate professional consulting is available, and you may conveniently make reservations for repair at the time and location of your choice.

### Navigation

This function enables the driver to conveniently search for destinations through voice command and suggests optimum routes based on an independent analysis of real-time traffic information. The driver can search a database of upto- date information to find even newly created destinations.

\*Free of charge for 5 years for first-time Bluelink members after vehicle purchase. Light Service (emergency call, airbag deployment notification, monthly report, traffic data, etc.) is provided free of charge for additional five years.

\*Certain functions (Digital Key 2, Hyundai CarPay, OTA (Over-The-Air) software updates, and wireless navigation system updates) are provided only to Bluelink members. Provided functions may vary by model.

\*Over-The-Air software update is available during the Light Service period, and the features available may vary by model. \*Inquiries: Bluelink Kakao Talk Customer Service Center (enter 'Bluelink' in Kakao Talk search screen and add as friend)

# EV Charging

A tightly-knit, far-reaching charging network with no blind spots makes charging easy and convenient for electric vehicle drivers.

## Nationwide status of ultra-fast charging station infrastructure

32 ultra-fast (350kW) charging stations  
(as of July 2022)

### Highway (12 stations)
